Appendix "C" to Procurement Policy

Lease Financing Policy

Introduction

In certain circumstances, it may be economically advisable for the Municipality to enter into a financing lease to acquire the rights to use capital property and equipment rather than an outright purchase. This policy establishes the procedures regarding the evaluation of potential financing lease agreements and the requirements for reporting the results of those procedures to Municipal Council as required under the Municipal Act, 2001, as amended, and Ontario Regulation 653/05, as amended.

Statement of Policy and Goals

In accordance with the Municipality's procurement policy, a procurement decision must always ensure that the prices paid for goods and services make optimum use of Municipality resources. When staff considers the option of a financing lease agreement, their evaluation of the option must ensure that this goal is achieved.

Adherence to the policies and procedures herein will result in a report presented to Municipal Council which clearly gives an opinion as follows;

- a) Whether or not the costs of the financing lease agreement are lower than other methods of financing available to the Municipality and
- b) Whether the risks associated with the financing lease are reasonable.

Definitions

Financing lease means a lease allowing for the provision of municipal capital facilities if the lease may or will require payment by the municipality beyond the term for which the municipal council was elected. Financing leases include both material leases and non-material leases.

Material lease means a financing lease which would result in a material impact for the municipality, which is hereinafter defined as an individual financing lease with annual payments in excess of \$10,000.

Non-material lease means a financing lease which would not result in a material impact or a combined impact for the municipality.

Material impact means costs or risks that significantly affect, or would reasonably be expected to have a significant effect on, the debt and financial obligation limit prescribed under regulations.

Combined material impact means the costs or risks of a proposed non-material lease which, when combined with all other non-material leases entered into or proposed to be entered into in a particular year by the municipality, would result in a material impact.

Municipal Capital facilities include land, works, equipment, machinery and related systems and infrastructures.

Payment Schedule

A financing lease agreement must include a schedule of all fixed amount of payment, if any, required under the lease and that may be required under any possible extensions or renewals of the lease.

Treasurer's Report

Before entering into a material lease, the Treasurer shall prepare a report to Council with recommendations, assessing, in the opinion of the Treasurer, the costs and financial and other risks associated with the proposed financing lease, including;

- A comparison between the fixed and estimated costs and the risks associated with the proposed lease and those associated with other methods of financing,
- A statement summarizing, as may be applicable, the effective rate or rates of financing for the lease, the ability for the lease payment amounts to vary, and the methods or calculations, including possible financing rate changes, that may be used to establish that variance under the lease,
- A statement summarizing any contingent payment obligations under the lease that in the opinion of the Treasurer would result in a material impact for the municipality, including lease termination provisions, equipment loss, equipment replacement options and guarantees and indemnities,
- A summary of the assumptions applicable to any possible variations in the lease payment and contingent payment obligations, and
- Any other matters the Treasurer or Council considers advisable including whether the scope of the financing lease warrants obtaining independent financial advice.

Legal Advice

The report may include legal advice on the provisions of the proposed financing lease agreement.

Change in Circumstances

At any time after a report regarding a potential financing lease agreement has been made, but before the agreement is entered into, if the Treasurer becomes of the opinion that a changed circumstance with respect to the proposed lease may result in a material impact for the municipality, the Treasurer shall as soon as is reasonably possible update the report and present the updated report to Council.

Annual Reporting

In accordance with Ontario Regulation 266/02, as amended, the Treasurer shall prepare an annual report and present to Council if the municipality has any financing leases subsisting in the fiscal year.

Exemptions – Non-material leases

A financing lease may be entered into without complying with this policy if the financing lease is deemed by the Treasurer not to materially impact the Municipality's debt and financial obligation repayment limit. The definition of material impact to be considered by the Treasurer in making this determination is included in the definitions section of this policy.
